

**CENTRUM'S 2007 PORT TOWNSEND JAZZ WORKSHOP**  
**Audition CD/Tape Information**

Why auditions? At the workshop, instrumentalists will be placed in combos with other players. We want the combo experience to be as dynamic and well-matched as possible. Auditions help us do that. Auditions are nothing to be intimidated about; we expect a wide range of abilities in the workshop, and our audition guidelines will tell you exactly what you need to do.

All applicants, including past participants, must submit an audition CD or tape and an audition form. This CD/tape is required regardless of age or musical experience, and must be a reflection of your current work. Acceptance to Centrum's Port Townsend Jazz Workshop is based on these audition materials. The sooner you send in your audition materials, the sooner we can confirm your acceptance. ***They are due in our office no later than May 11, and sooner is better.***

**Note that this year there is an alternate set of requirements that returning applicants can choose if they wish.** These are designed for upper level players who would like to have more flexibility in what they submit on their audition recording.

Use of play-along recordings (e.g. Aebersold) is acceptable if it's not possible to play with live musicians. Improvised solos are required. If you're not yet able to do this, you will probably be placed in one of our beginning combos, where you can begin to learn how to improvise.

The recording quality of the tape is not critical, as long as you are clearly audible. Simple home recordings are perfectly adequate. Please don't delay sending your tape by striving for studio-quality recording.

Your audition CD or cassette and its case must be clearly labeled with the date, your name and instrument. Each audition tape must be recorded on a CD, or a normal or high bias cassette tape.

**Additional live instrumental auditions for combo placement may be requested of some applicants for final placement.** You will be notified if you'll be asked to do a live audition.

Included here are guidelines for your instrument, scales and musical samples, and a song source list. If you have questions about the audition information, please contact the Jazz Program Manager, Bill Kiely, at 360.385.3102 x106, or [bill@centrum.org](mailto:bill@centrum.org).

Thank you for your interest. We look forward to seeing you!

## ALTERNATE REQUIREMENTS, FOR RETURNING APPLICANTS ONLY

You Can Make the Rules For Your Centrum Jazz Workshop Audition!

Returning participants have the opportunity this year to customize their audition CD/tape. We particularly recommend this option if you want to audition for one of the upper level combos. (If you choose the standard audition format or if you're a first time participant you *are* still eligible for these combos).

The audition recording you create will consist primarily of transcriptions of your choice, plus one original composition. Follow the guidelines below for your instrument.

### Tips:

- Choose pieces that you can play accurately and convincingly.
- Play exactly what was done on the recording—capture the dynamics, articulation, inflections, style, excitement, etc.
- Ask your teacher(s), friends or professional musicians for advice if you need direction in helping compile a transcription list.

### Bass

- **Transcribe and play 3 walking bass lines. Play along with the original recording, being sure to position the microphone so that 75% = your playing, 25% = original recording.**
- **Transcribe and play 1 piece of your choice.** Examples might include a bass line that is not strictly a walking bass line, something with a “looser” feel, e.g. another style, such as Brazilian, funk, Latin; a bass solo, etc. (Optional) Play 1 original composition.

### Song Resource List

Here are some sources that contain lots of jazz standards to help you in preparing your audition tape/CD.

**Hint:** You can also use the internet to search for music. A good way to look for jazz songs is to type in the title and the composer of the tune into your search engine. Indicate that you are looking for the music and the chords. If you just type the word "music" into the search engine you are liable to come up with a sound file only and not a source which allows you to obtain the printed music. Using a plus sign (+) when you type information into your search engine will help too. For example, to search for a chart (printed music) you would type the following: song title + composer + the words "sheet music" + the word "chords." This will frequently lead you to sites like Amazon.com where songbooks with the titles you are looking for are for sale and/or to websites such as songtrellis.com, the Jamie Abersold site, and even individual artist websites, such as the Thelonius Monk page where transcriptions are sold or sometimes can be downloaded for free.

Note that Fake Books or Real Books often contain mistakes. Check with instructors and professional musicians when in doubt of accuracy.
